# M.Ch. (Urology) Practice Paper – Set 6 – Paper III
## SUBSPECIALITY OF UROLOGY – III (compiled from Question Bank)

Total Duration : 3 Hours Total Marks : 100

Instructions: 1) All questions are compulsory. 2) The number to the right indicates full marks. 3) Draw diagrams wherever necessary. 4) Questions can be asked from any paper's syllabus into any question paper. 5) Use a common answer book for all sections.

**1. Long Answer Question :** [1 × 25 = 25]

Discuss the management of B/l VUR and discuss its long term outcome

**2. Long Answer Question :** [1 × 25 = 25]

Discuss development of urethra. Classify congenital anomalies and discuss management of epispadias

**3. Short Answer Questions (Solve any 5 out of 6) :** [5 × 10 = 50]

a) Various lasers in treatment of BPH
b) Telomerase
c) Newer methods of stone analysis
d) Describe newer diagnostic modalities for Gu Kochs. Briefly outline role of all present diagnostic tests and give diagnostic algorithm.
e) Present status of varicocele treatment
f) Recent advances in nephron sparing surgery. Role of neoadjuvant therapy.

# M.Ch. (Urology) Practice Paper – Set 6 – Paper IV
## RECENT ADVANCES – IV (compiled from Question Bank)

Total Duration : 3 Hours Total Marks : 100

Instructions: 1) All questions are compulsory. 2) The number to the right indicates full marks. 3) Draw diagrams wherever necessary. 4) Questions can be asked from any paper's syllabus into any question paper. 5) Use a common answer book for all sections.

**1. Long Answer Question :** [1 × 25 = 25]

Present concept in management of hypospadias

**2. Long Answer Question :** [1 × 25 = 25]

Discuss recent advances in tissue engineering with respect to urology

**3. Short Answer Questions (Solve any 5 out of 6) :** [5 × 10 = 50]

a) Newer methods of stone analysis and their significance in management of calculus disease.
b) Urolift.
c) Combination Intravesical therapy
d) Etiology and management of hypospadias fistula.
e) Tubeless PCNL
f) Miniperc
